SUMMARY

An aspiring developer with 6 months of internship experience and 2 months of professional work experience, seeking a position to leverage my skills and contribute effectively to the team. I am eager to learn and grow while supporting the organization's goals and my career development.

WORK EXPERIENCE

SARVI SOLUTIONS | Kalyan (Remote)

Web Developer (Full Time)

Nov. 2024 - Present

- **Creating documentations** such as **User, Admin, and Software Documentation** of projects.
- Collaborating with team members to **test websites and document project-related queries**, ensuring **accuracy and clarity**.
- **Collaborating on a Laravel-based project**, leveraging **Vite, jQuery, and AJAX** to ensure **efficient development and dynamic functionality**.

Web Developer / Designer (Internship)

May 2024 - Nov. 2024

- Initially, worked on assigned **individual tasks focused on foundational HTML, CSS, and JavaScript**.
- Enhanced form functionalities while ensuring consistency with existing codebase with its theme.
- Learned CodeIgniter and Laravel while working on tasks, **converting CodeIgniter files to Laravel to leverage its robust environment**.
- **Collaborated on a job portal project using Laravel** on GitHub, **contributing by creating documentation and a user flow chart with FigJam**. I worked on the **frontend, relational database setup, and various backend features**. Our goal was to build a user-friendly and robust platform **with a secured database**.
- Learned and gained **experience in WordPress on localhost** using xampp **with both Elementor and BlockEditor**, working with **themes and plugins**, while **focusing on SEO to create basic functional e-commerce websites**.

M & T TOOLS PVT. LTD | Ambarnath (Full Time)

Sept. 2022 - July 2023

VMC Operator

- I worked as a Vertical Machining Center (VMC) machine operator. Initially, I learned how to operate the VMC and read engineering drawings. After a few months of training, I started handling the machine on my own.

SKILLS

- **Web Tech.** : HTML5, CSS3, Javascript, Bootstrap, Tailwind CSS, Jquery, MySQL, Laravel and WordPress.
- **Version Control Systems** : Git & GitHub.
- **Softwares** : VSCode, XAMPP.

INTERNSHIP PROJECTS

MPLOYIS (Job Portal Website)

A group project on localhost with other interns, using Laravel to create a job portal website. My primary responsibility was managing the frontend, allowing users to create profile and apply for jobs and enabling companies to post their job listings.

MENTOR

I worked on an individual project to create a login page on frontend and basic CRUD operations using codeigniter on the backend in a dashboard theme.

PERSONAL PROJECTS

M & T Tools Pvt Ltd [\[Link\]](#)

A Portfolio website for a Mechanical Engineering Company where I handled both the designing and development work.

Myntra Landing Page Clone [\[Link\]](#)

This project is created by using only HTML and CSS, gained some better understanding about how flex and positions work, it gave me some idea about how much it helps to built a responsive webpage.

Text to Speech Convertor [\[Link\]](#)

This project was quite interesting for me, learned some new about API's and also here I got to know that javascript also has some inbuild API's which I found interesting alot.

Frontend Mentor Projects [\[Link\]](#)

Basic HTML and CSS projects to practice and enhance my skills in semantics, SEO, and assistive technologies.

CERTIFICATES
